## FCC COVER LETTER

RE: FCC ID: CFS8DL6280ZW and FCC ID: CFS8DLWIFI

To Whom It May Concern,

During a recent audit of our CFS8DL6280ZW Wifi product we discovered that on two occasions when reports cited peak power we had inadvertently submitted average power readings. We have corrected our internal procedures to avoid this in the future and rewritten our:

15.247(b) Peak Power Exhibit's  
1.1310, & 1.1307(b) MPE Exhibit's

Since these corrections affect the reporting of power and MPE we wish to correct this error as soon as possible, and therefore ask that you set aside the grants so that we can update the information and grants.

Sincerely,  
Greg Barbato  
(516) 577-5863
