Subject : Request putting labeling of statement 15.19 (a) (3) in manual FCC ID: CGDCONVEXSM

Dear Mrs. Bosley,

We, N.V. Nederlandsche Apparatenfabriek "Nedap", declare that it is hardly possible to add the statement as mentioned in Part 15.19 (a) (3):

*This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.*

next to the FCC ID, model number or the brand name on the bottom of the product due to size restrictions.

There for we request the above mentioned statement be allowed to be in the manual, due to size and not able to add a sticker, based on the 2.935/2.936 rule part.

I hope you can honor our request

Best regards,  
N.V. Nederlandsche Apparatenfabriek "Nedap"

- (d) It would be helpful if you include the size of the device when requesting the compliance statement from Section 15.19(a)(3) of the FCC Rules to be allowed in the user manual instead of on the actual device.

*Answer:*

*The dimensions of the Convexs 80 x 80 x 32 mm, so there would room enough to place the warning label on the front of the product but this is not very practicable with respect to the visibility and design. As an alternative we would put it on the side or the bottom of the product but then the warning would probably not readable anymore. There for the request was to put it the manual and the install sheet. As mentioned already the install sheet is delivered with package of the product.*

Hopefully this letter answers all the comments, but if more information is needed don't hesitate to contact me.

Best regards,  
N.V. Nederlandse Apparatenfabriek "Nedap"
