

Doorframe i7

THE DOORFRAME 17 IS A STATE-OF-THE-ART 8.2 MHZ RF ANTENNA WITH CUSTOMER COUNTING SENSORS FOR INTELLIGENT ARTICLE SURVEILLANCE (IAS). IT CAN EASILY BE MOUNTED ON A DOOR OR WINDOW FRAME, KEEPING THE ENTRANCE OF THE STORE WIDE OPEN. THE DOORFRAME 17 IS A CONCEALED SOLUTION ESPECIALLY DESIGNED FOR VERY NARROW ENTRANCES AND ENTRANCES WHERE IT IS NOT PREFERRED OR PRACTICAL TO PLACE GATES ON THE FLOOR.

SPECIFICATIONS

- Equipped with Nedap's OID (Orientation Independent Detection) technology; tags are detected regardless of their position (front/flat/side/angled)
- Acoustic and visual alarm signalization
- Customer counting
- Integration possibility with other (3rd party) security devices via open API
- Real-time insight and control with in-store and organization-wide dashboards
- Remote service
- Can be mounted on wall or doorframe

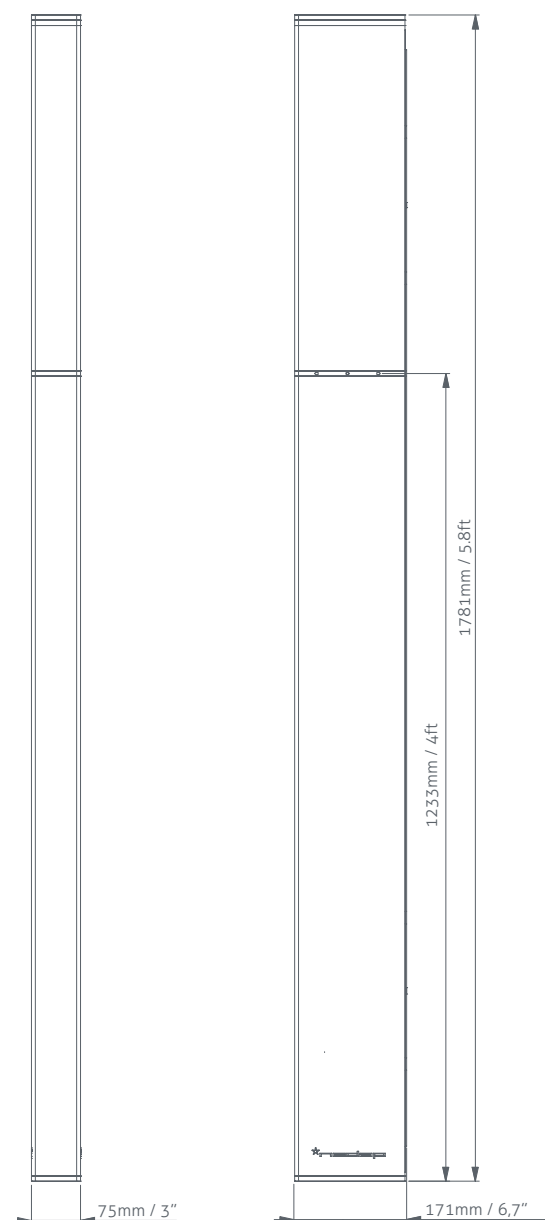

OPTIONS

- Floor mount column
- Real-time in-store security dashboard
- Organization-wide (multi-store) dashboard via Web or App
- Open API (Application Programming Interface)

PACKAGE INCLUDES

- Doorframe i7 (electronics included)
- Installation set

ORDERING INFORMATION

Description	Article number
ASSY FC180R RF WHITE	9563725

TECHNICAL SPECIFICATIONS

- Frequency 8.2 MHz
- Dimensions 1781mm x 171mm x 75mm
5.84ft x 6.73" x 2.95"
- Weight 28.5 kg / 62.83 lbs
- Mains 100 - 240V
- Average Power consumption 12W per Antenna
- Temperature 0 .. 45°C
