##### **Inquiry:**

Dear Madam or Sir,

Soon we will file an application for FCC ID: CGDRELAY (see pdf)

This product is for professional installation and is mounted 13-20 feet above ground.

The FCC ID will laser printed on the flat part of the product and the rest of the product is curved. It is impossible to laser print on the curved part of this device. Adding a label to this special designed product will influence the nice look of this device.

There for I request to put following statement as mentioned in 15.19 (3) on the packaging box and/or in the manual only whatever is necessary:

*This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.*

I wish to refer to the following

(5)

When the device is so small or for such use that it is not practicable to place the statement specified under paragraph (a) of this section on it, the information required by this paragraph shall be placed in a prominent location in the instruction manual or pamphlet supplied to the user or, alternatively, shall be placed on the container in which the device is marketed.

I hope you can honor our request..

Kind regards  
Jacques

**FCC response on 07/11/2014**

(5) When the device is so small or for such use that it is not practicable to place the statement specified under paragraph (a) of this section on it, the information required by this paragraph shall be placed in a prominent location in the instruction manual or pamphlet supplied to the user or, alternatively, shall be placed on the container in which the device is marketed.

The FCC allows the statement to be placed in a prominent location in the instruction manual or pamphlet supplied to the user.
