Subject : Not easy to add statement 15.19(3) to the SENSIT SURFACE MOUNT
FCC ID: CGDSENSITSM

Dear Mrs. Bosley,

We, N.V. Nederlandsche Apparatenfabriek "Nedap", declare that it is very difficult to add the statement as mentioned in 15.19 (3):

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

next to the FCC ID, model number and the brand name of the product due to restrictions as mentioned below.

Since the SENSIT SURFACE MOUNT should not attract too much dust it is molded from Poly Ethylene (=PE), so it doesn't get too dirty.

It also very difficult to attach a label to the PE enclosure, there for the FCC ID, model number and the brand name are laser engraved in the product.

The statement in 15.19 (3) consists of many words and if it should be laser engraved and the letter size should be rather large there is not enough space on the device.

Because of above mentioned reasons we request the statement 15.19 (3): be allowed to put in the manual, due to size and not able to add a sticker, based on the 2.935/2.936 rule part.

I hope this request can be honored.

Best regards,
N.V. Nederlandsche Apparatenfabriek "Nedap"

Jacques Hulshof
