Our General Terms and  
Conditions, as filed at the  
Chamber of Commerce in  
Groningen, are applicable to all  
orders given to TÜV Rheinland  
EPS B.V.

TÜV Rheinland EPS B.V. is  
registered at the Chamber of  
Commerce in Groningen with  
no. 27247331.

Dear Mrs. Bosley,

Related to your comments based on our request for certification for the  
following product,:

FCC ID : CGDVELOS4  
Brand : Nedap  
Model : VP1007  
Description : A proximity tag reader operating on 134 kHz.

We would like to provide you with the following information:

Question 1:

*The amended IC application file cannot be opened. I get an error that the file is  
damaged and cannot be repaired. Please upload the amended IC application  
form for this application again. Before uploading, please verify that it can be  
opened on your end.*

Answer 1:

Corrected, see uploaded document:  
"03\_1444A-VELOS4\_IC\_Application\_Rev01b.pdf"

Question 2:

*The Canadian Representative letter has several problems. First, the name and  
address of the Canadian Representative on this letter do not match the name  
and address of the Canadian Representative given on the IC application form  
(See the second and third attachment to this email). Second, the Canadian  
Representative must sign this letter, not the applicant. The applicant cannot  
certify that the Canadian Representative accepts the responsibility to act on  
their behalf, only the Canadian Representative can do that. Please provide a  
new Canadian Representative letter that meets these criteria.*

Answer 2:

Corrected, see uploaded document:  
"1444A-VELOS4\_CanadianRepresentativeLetter\_V2.pdf"

Question 3:

*In response to item 10 of my request for additional information dated April 4,  
2009, you dropped your request for confidentiality of the operational description  
exhibit and provided an updated operational description (which is eligible for  
confidentiality). (continues on next page)*

*In order to drop the request for confidentiality of the operational description, you must provide new confidentiality request letters for both the FCC and IC. Alternatively you can request confidentiality of the updated operational description that you just submitted and use the FCC and IC confidentiality request letters that have already been submitted and reviewed. Please let me know how you wish to proceed on this matter of the confidentiality of the operational description.*

**Answer 3:**

I hereby would like the already submitted request for confidentiality letters to apply to the updated operational description.

**Date**
