Subject: Attestation of Similarity FCC ID: CGDVP500X

Dear Mrs. Bosley,

The Models: VP5002 VELOS and VP5004 VELOS as mentioned in report "12_12062004.fcc01 testreport CGDVP500X.pdf" are handheld transceivers operating on 134.2 kHz for the identification of animals.

VP5002 VELOS and VP5004 VELOS are delivered by Nedap directly to its dealers and/or end users. Both systems are electronically as well as mechanically the same, but have different foil membranes and the VP5002 VELOS also includes a Bluetooth module with FCC ID: RFR-B2029.

Nedap delivers two more models of the VP5002 series to GEA and ROXELL. These are the Models: VP5002 GEA and VP5002 ROXELL.

The VP5004 series is also delivered to GEA and is called Model: VP5004 GEA.

GEA and ROXELL on their turn deliver the systems to their dealers and/or end users.

I thereby wish to request whether you can add these models to the list of approved systems.

I hope you can honor our request

Best regards,
N.V. Nederlandsche Apparatenfabriek "Nedap"

Jacques Hulshof
