Subject: Request for Class II permissive Change
Applicant: Nikon Corporation
FCC ID: CGJ3143EB

This is to request a Class II permissive change for FCC ID: CGJ3143EB, originally granted on November 17, 2006. The major change field under this application is:

Change #1:

FCC ID: CGJ3143EB is originally granted as portable modular transmitter with the particular host device. This time we performed additional SAR testing and would like to obtain FCC grant as portable modular transmitter for additional host device.

The modular transmitter and its antenna are completely identical with the one, which has already been granted by the FCC as FCC ID: CGJ3143EB. SAR test for the additional host device was performed. It is verified and confirmed that the equipment still complies with the FCC requirements after changes.

Thank you for your attention to this matter.
