Yes, we will provide revised test report and the manufacturer will response to this comment for sure. Also, we will provide a statement which state that channel 12 and 13 would not be used in order to satisfy your comment. We believe that would be sufficient. We hope to receive good news from you very soon. Have a nice weekend! Best regards, Yoshiko Mizuta <<<<<<<<<<< Yoshiko Mizuta UL Apex Co., Ltd. The statement would be simply that this device complies with the FCC RF exposure requirements. Thanks" Dennis ----Original Message----From: Yoshiko.Mizuta@jp.ul.com [mailto:Yoshiko.Mizuta@jp.ul.com] Sent: Thursday, July 17, 2003 3:47 AM To: dward@americantcb.com

1

Thank you for the comments.
We have a question to your comment, number 3.

What you suggest us is to put RF Exposure statement which says"This equipment should be installed and operated with minimum distance at least 20 cm from persons body.....".

However, what if it is not possible to do so, we can not include this statement in the manual?

We would like you to advise us how we response to this comment to meet your requirement.

Please provide your advise as soon as possible.

Best regards,

Yoshiko Mizuta
