

## FEDERAL COMMUNICATIONS COMMISSION 7435 OAKLAND MILLS ROAD COLUMBIA, MD 21046

Dated this 20th day of March, 1998.

The equipment has been tested in accordance with the requirements contained in the appropriate Commission regulations. To the best of my knowledge, these tests were performed using measurement procedures consistent with the Industry or Commission standards and demonstrate that the equipment complies with the appropriate standards. Each unit manufactured, imported or marketed, as defined in the Commission's regulations, will conform to the sample (s) tested within the variations than can be expected due to quantity production and testing on a statistical basis.
