Elliott TCB  
684 West Maude Ave.  
Sunnyvale, CA. 94085

FCC ID: CH8D90327W30-XX

To Whom It May Concern:

This letter is to acknowledge that the necessary manufacturing changes have been incorporated in the WMT0583 to allow the device to be compliant to FCC Part15 requirements.

The manufacturing process has been changed to add a soldering process to the product that attaches more points of the can shield to the printed circuit board; preventing excessive emissions from the product.

Sincerely,

Albert L Engelkens  
Project Engineer
