1 IDENTIFICATION LABEL

FCC Section 2.924,2.925, 2.926,2.1033 (c) (2)

The FCC ID label to be affixed to the transmitters rear panel is shown below. It details the FCC ID number chosen for the transmitter series, the equipment model number according to type, and limits to range of operating power for that equipment type. Refer to Figure 4 below for actual label placement on the transmitter unit.
