

For Wireless LAN:

Caution: Exposure to Radio Frequency Radiation.

The Toshiba Wireless LAN Mini PCI Card will be installed with one of three types of antennas. One of these antennas, when installed will be located under the keyboard. The other two antenna types, when installed are located at the upper edge of the LCD screen.

For both antennas located above the LCD, the radiated output power of the TOSHIBA Wireless LAN Mini PCI Card is far below the FCC radio frequency exposure limits. Nevertheless, the TOSHIBA Wireless LAN Mini PCI Card shall be used in such a manner that the potential for human contact during normal operation is minimized. In normal operating configuration, the LCD in the upright position, the distance between the antenna and the user should not be less than 20cm.

The Toshiba Wireless LAN Mini PCI Card with the antenna located underneath the keyboard has been tested to the FCC exposure requirements (Specific Absorbtion Rate). Refer to the Regulatory Statements as identified in the documentation that comes with those products for additional information.
