AN07T6492, Notice#1

Hi Helen,

Here are the replies to your questions:

Question #1: Please submit SAR test report attachments.

Answer:

Please see attached.

Question #2: There are two request for confidentiality letters in the filing. One is "Confidentiality Letter.pdf" which requests both long term and short term confidentiality, but the items listed under long-term are the same as those under short-term. The other one is "Short Term Confidentiality Letter.pdf" which requests short-term confidentiality only, but lists external photos and internal photos which are not submitted. Please either submit external photo exhibit, internal photo exhibit or modify the letter.

Answer: New Confidentiality Letter is attached.

Question #3: The Class II change cover letter does not indicate whether adding new band is through software change or hardware change, and whether ad-hoc mode is disabled or not in new UNII band. Please modify the Class II change letter to specify clearly.

Answer: New C2PC letter is attached.

Question #4: The EMC report indicates the Class II change is to change a different host, which does not agree with Class II change cover letter. Please explain.

Answer: New test report is attached.

Question #5: SAR has been performed with Toshiba Laptop R20 in the previous Class II filing, approved on 9/6/2006, colocation with bluetooth module (CJ6UPA3418BT) and CDMA module (CJ6UPA3490G3) was evaluated. This time, the report shows new UNII band test was performed with the same host, but colocation with bluetooth module (CJ6UPA3418BT) only was evaluated. Please explain. For your information, the host manual submitted with 9/6/2006 Class II filing is TECRA M7, not Toshiba Laptop R20 however this time you submit the host manual of Toshiba Laptop R20. Is it the reason you submit the host manual of Toshiba Laptop R20 in this filing?

Answer: New C2PC letter is attached. Both manuals are correct as they are the same machine with two Designations for marketing purposes, so you can use either Tecra M7 or Satellite R20, or Tecra M7/Sat R20.

Thank you.

Kindest regards,
September

Hello September,

I have reviewed this application, below are my comments.

Thank you,
Helen
