Re: Technical Justification Letter Pertaining to FCC ID: CJ6UPA3758WL

Dear OET Staff:

This is to justify the use of 802.11bgn 1x2 PCIe Minicard Transceiver, Model Name: PA3758U-1MPC in a different portable host and, that since, there is no change to the module design or hardware, the antenna(s) used in the portable host are the same antenna type(s) as the previous with less gain by comparison with the antennas included in the original submitter's modular approval and output power remains unchanged, the EMC tests, therefore, were not deemed necessary to have been performed.

If you have any questions regarding this application, please feel free to contact Mr. Peter Leone of Toshiba America Information System Inc., (949-587-6473).

Sincerely yours,

K. Takenaka, Group Manager
Quality Management Division
Digital Media Network Company
Toshiba Corporation
