Hi Lucy,

Please see the response.

Thanks,  
Chi

Hi, Claire,

Please address following issues.

Q#1: According to the user manual, Toshiba Libretto W100 may also equip with a WWAN module but there are no information mentioned about WWAN in this application. Which WWAN module will be used? Will WWAN co-locate with WLAN and BT simultaneously? Please address.

Answer: The user manual says 'Some computers may equipment with WWAN..' But in this host there is no WWAN equipped and that's why we didn't address the WAN issue in this application.

Q#2: According to Antenna location exhibits and SAR test report, this WLAN module can locate with BT module. Please indicate the FCC ID of BT module into SAR test report.

Answer: Added Bluetooth's FCC ID to SAR report.

Best Regards,  
Lucy

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
