FCC ID	CM6-670-1632-1400
Agent	
Approval Type	Original
Equipment Class	TNT Licensed Non-Broadcast Transmitter Worn on Body
Rule Part	95H

Overview

This application is for the original approval of a Wireless Medical Telemetry transmitter in a family of Spacelabs Healthcare products. Each of the models (96281-A09N, 96281-A09W, 96281-B09N, 96281-B09W, 96281-C09W) contain the identical radio operating under FCC rule part 95H. The products also contain a previously approved Bluetooth radio module FCC ID: CM6-WT12, which is used at the factory for programming and configuring the device.

Confidentiality requested for allowed files. Request is properly addressed and referenced.

Recommendation

All items have been resolved and completed to my satisfaction; therefore I recommend this application for approval.
