To whom it may concern,

We request certification of our module FCC ID: for limited singular module approval.

Because of the unique nature of the limited modular approval we understand that the final product requires approval with limited testing and request approval for the 2 final products listed below which contain the module.

The 2 products are:

1. Paddle controller PD03 and variants PD04, PD05, and PD06. The differences being only in the number of paddle controls.
2. Controller LRC-L1 and its variant M1. The differences being only in the number of controls.

Regards,

Cattron-Theimeg Inc.
