### RSE Justification Letter

We, **Universal Global Scientific Industrial Co., Ltd.**, declare that the device without RSE testing due to the following:

- The end product (Brand: **FUJIFILM**, Model: **FF180005**) with module under FCC ID: **COF-WMBACBM25** was assessed compliant to radiated emission limits per 15.247 in its initial approvals.
- The end product under this application uses same type and gain antenna across the emission bands.
- The original FCC testing on module under FCC ID: **COF-WMBACBM25** was performed when the antenna was connected to the module in an open environment. The current platform under application has the antenna installed inside the Digital Camera enclosure. The physical restraints introduced by Digital Camera enclosure should have resulted in equal or lower level of radiated emission.

Should you have any question or comment regarding this matter, please have my best attention.

Sincerely yours,

A handwritten signature in blue ink that reads "Martin Shih".
