

—Consult the dealer or an experienced radio/TV technician for help.

**WARNING:** Changes or modifications to the equipment that are not expressly approved by the responsible party for compliance could void the user's authority to operate the equipment.

## SAFETY INSTRUCTIONS

### To power down the NOIRE 710:

- Disconnect the power supply block from the electric power supply network.

### Electrical power supply network

Provide an A/C receptacle that meets the following recommendations:

Connector is installed near the equipment and is easily accessible

# NOIRE 710 Payment Terminal

## USER GUIDE

NBS Payment Solutions Inc.  
Corporate Headquarters - Canada  
703 Evans Avenue, Suite 400  
Toronto, Ontario, M9C 5E9  
Canada

Tel: +1 416 621-7410

Fax: +1 416 621-2450

## UNPACKING THE NOIRE 710

Carefully preserve the packaging of the terminal. It must be re-used whenever the terminal is shipped.

### Communications Options:

The NOIRE 710 may be ordered with a choice of communications options which may include:

- Serial RS232C
- Ethernet
- USB

### Packaging contains:

- The terminal itself.
- Detachable power supply unit, for use on the Serial RS232C and Ethernet versions only. The power supply unit delivered with your terminal is specially designed for it. Do not use any other power supply. The use of a power supply having apparently similar voltage/current characteristics may, in spite of this, damage your terminal.
- Communications cable matching the communication option ordered
- Installation Guide

## FCC/IC COMPLIANCE

**FCC ID: COL-NOIRE710U**

**IC: 2279B-NOIRE710U**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
