

Important Product and Safety information

1. Do not disassemble the device. It may damage the device, and void the warranty.
2. Operate the device in a place where temperature is between +5°C and +40°C.
3. Protect your device from water and moisture intake. Keep connector covers closed when not in use to prevent water and moisture intake.
4. Use only soft and dry lint-free cloth to clean the device.
5. Use only the power charger delivered with the device.
6. Do not use damaged power cords or plugs.
7. Save energy by doing following.
 - Reduce screen brightness and sound volume.
 - Close any applications and data connections that are not being used.
 - Disable sounds like touch sound.
 - Disconnect any peripherals from the device if they are not used.
 - Unplug the charger from the electrical outlet when it is not used.
8. The device contains replaceable battery. There is risk of explosion if battery is replaced by an incorrect type.
9.  Listening to the device at high volume levels for long periods may cause hearing damage.

This device complies with PART 15 of the FCC Rules. Operation is subject to following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

 **WEEE STATEMENT**

The WEEE directive places an obligation on manufacturer who sell into EU countries to take back electronic products at the end of their useful life. The symbol (shown here) will be on PIONEERPOS products and/or packaging, which indicates that this product must NOT be disposed of with other waste. Instead it is the user's responsibility to dispose of their waste electrical and electronic equipment by handing it over to an approved reprocessor, or by returning it to PIONEERPOS for reprocessing. For more information about where you can send your waste equipment for recycling, please contact your local recycling facility or PIONEERPOS at dash@pioneerpos.com

Federal Communications Commission (FCC) Statement

15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1) this device may not cause harmful interference and
- 2) this device must accept any interference received, including interference that may cause undesired operation of the device.

RF Exposure:

For body worn operation, this device has been tested and meets FCC RF exposure guidelines when used with an accessory that contains no metal and that positions the handset a minimum of 0mm from the body. Use of other accessories may not ensure compliance with FCC RF exposure guidelines.
