## 3. Outline of Smart Key FOB

Smart Key FOB is mainly used for locking or unlocking the doors of the vehicles. Smart Key FOB detects signals when it reaches the vicinity of vehicle, and sends signals using radio frequency.

Also, Smart Key FOB sends a radio wave signal while a button is pushed.   When the button is released, the radio wave signal is automatically off within 0.392 seconds. When the button is depressed continuously, Smart Key FOB sends a signal for a predetermined constant time.

This product sends a signal when the following buttons are pushed.

Lock button
for locking the doors

Unlock button
for unlocking the doors.

Trunk button
for opening the trunk
or back door.

Panic button
for Panic Alarm
