

**ROTHENBUHLER  
ENGINEERING®**

**TYPE OF EXHIBIT:** Justification for Label Location

**MANUFACTURER:** Rothenbuhler Engineering, Inc.  
524 Rhodes Road  
Sedro Woolley, WA 98284-0708

**MODEL:** 1200-1

**FCC ID:** CW21200-1

**IC:** 2758A-120001

**TYPE OF UNIT:** Whistle Transmitter

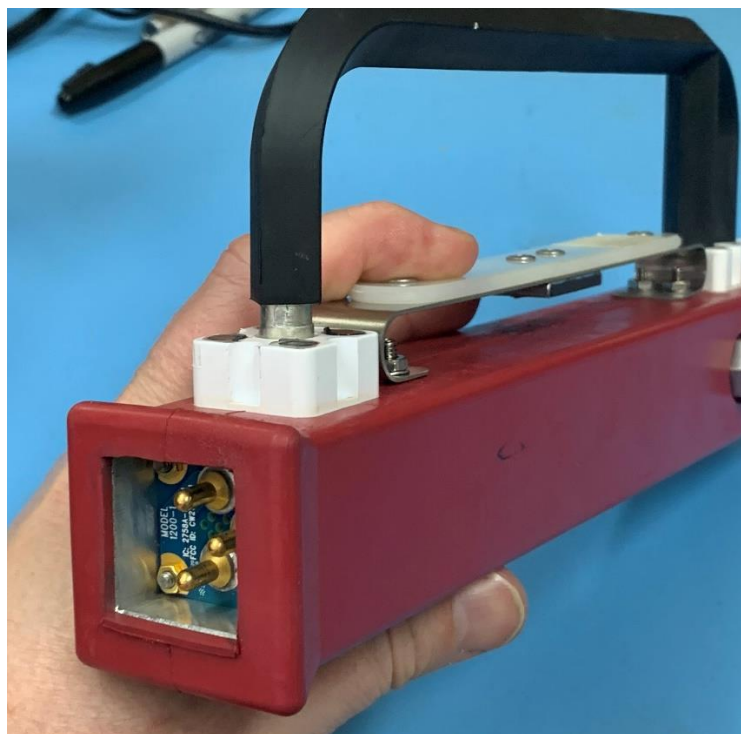

**DATE:** January 27, 2020

The FCC ID and IC Label can be viewed from the end of the transmitter's housing. The text is supplied in a white silkscreen adhered to a blue PCB material. The labels are adjacent to the microphone port and the charging terminals. The text is clearly visible and protected from normal wear by the aluminum extrusion. Rubber moldings encompass most of the rest of the transmitter and make the application of the text anywhere else extremely difficult.
