RE: FCC ID: CWTUGPZ6\_ATCB002496

Attention: Toyokazu Imamura / Akane Yamamoto

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that the OEM installers guide is not an exhibit that can have permanent confidentiality status. While this type exhibit may be held in temporary confidentiality, it cannot be permanently confidential. Please remove this from the list of item in the request for confidentiality. If this is desired to be held in temporary confidentiality (i.e. for 45 days or until placed on the market in the US), please provide a letter requesting this.
2. FYI – no action needed. Please note that BT devices under 15.247 require the power levels on the grant. Please note that the 731 form does not contain the measured power level as required. In future applications please provide this information for this type device.
3. FYI – no action needed. Please note that as the BT device is less than 5mW there is no need for an MPE report.
4. Please provide the test setup photos.
5. Please note that you have not provided the second page of the IC application form. This second page contains items such as the power, type equipment, emissions designator, test lab, etc. Please download the IC application form page 2 and complete this form.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
