Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia, MD 21046

Subject: Class II Permissive Change
Gentlemen:

The purpose of this Permissive Change request is to extend the frequency range to 403-470 MHz. The product was originally designed to work up to 470 MHz, but was inadvertently filed with a frequency range covering only up to 450 MHz.

There have been no electrical or mechanical changes to the design.

Regards

James Hougo
