Subject: Tecom Co., Ltd., FCC ID: D6XBT3071, Assessment NO.: AN07T6905, Notice#1

Question #1: The Test report - Dwell time (page 37 of 85): the summary does not agree with the test results. e.g. DH1 - Summary shows "The maximum time of occupancy for a particular channel is 192.060ms in any 31.6 second period", but the test results show the max. time of occupancy is 185.658 ms.
Please update the report.

Question #2: The test report - 20dB bandwidth (sheet 10-12 of 40): the markers were not placed correctly, the actual 20dB bandwidth should be wider. Please update the report.

Question #3: The user manual indicates the USB port is used for charging only. But the FCC ID label shows an FCC DoC logo, which might not be correct. Please confirm the function of the USB port. If this device is a PC peripheral, then please add FCC15.105(b) statement into the manual. If the device is not a PC peripheral, then please remove FCC DoC logo from the label format.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
