P10T L8A Class II Permissive Change

Dear Mr. Crowder:

This letter is to confirm that the Shure P10T L8A wireless microphone transmitter is electrically identical to the P10T L8 (FCC ID: DD4P10TD), with the only difference being the frequency range.

This version is made available to satisfy the requirements of the Federal Communications Commission reallocation of frequencies in the 600 MHz band. In both cases the transmitters and their associated circuitry and antennas are identical.

Complimentary Close,

Craig Kozokar, Project Engineer
Global Compliance, Regulatory and Quality Systems
