P9T X55 Class II Permissive Change

Dear Mr. Crowder:

This letter is to confirm that the Shure P9T X55 wireless personal monitor transmitter is electrically identical to the P9T X1 (FCC ID: DD4P9TJ), with the only difference being the frequency range.

This version is made available to accommodate reallocations of frequencies in the 900 MHz band. In both cases the transmitters and their associated circuitry and antennas are identical.

Sincerely,

Craig Kozokar, Project Engineer
Global Compliance, Regulatory and Quality Systems
