Dan Crowder Elite Electronic Engineering Inc. 1516 Centre Circle Downers Grove, Illinois 60515-1082

Subject: QLXD1 V50 V50 SAR Exclusion

Dear Mr. Crowder

This letter is to confirm that the Shure QLXD1 V50 wireless microphone transmitter meets the standalone SAR test exclusion considerations as described in Paragraph 4.3.1 of FCC KDB 447498, based on the specified calculation:

[max. power of channel, mW] / [min. test separation distance, mm] x  $\sqrt{f_{(GHz)}} \leq 3$ 

For QLXD1,

 $[10 \text{ mW}] / [5 \text{ mm}] \times \sqrt{0.216} = 0.93 \le 3$ 

Where max. power = 10 mW min test separation distance = 5 mm max. frequency = 216 MHz

Sincerely,

raig Rozelan

Craig Kozokar EMC Project Engineer, Global Compliance Shure Incorporated
