

- Notes:**
1. All resistors are $\frac{1}{16}$ W, 1%, 0603 unless otherwise specified.
 2. Electrolytic capacitors are shown in μF and volts. Unless otherwise specified, all non-polarized capacitors have a ≥ 50 V rating and a 10% tolerance.
 3. The symbol \perp indicates a PC board ground.
 4. DZ1 was not placed on the pre-1999 domestic boards (34A8589F).
