FCC OET

RE: FCC ID DDE7EPTX-STX500 Confidentiality Request

Pursuant to 47 CFR 0.457(d) and 0.459, Broadcast Electronics is requesting that certain documents included in its application for FCC certification of DDE7EPTX-STX500 be treated with Long-Term Confidentiality.

BEI LLC has spent substantial effort in developing this product, and it is one of the first of its kind in the industry. Having the subject information easily available to competition would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

The documents/exhibits that are requested to be kept confidential are:

	Exhibit Type	Description
1	Internal Photos	Internal Photos
2	Operational Description	Theory of Operation, section 1.3
3	Parts List/Tune Up Info	Parts List
4	Parts List/Tune Up Info	Tune Up Procedure
5	Schematics	Schematics
6	Users Manual	User Manual

These documents all have the "Permanent Confidential" properly selected during the upload process.

Sincerely,

Brian Lindemann

Vice President, RF Engineering
