Re: FCC ID: DF63C80500
Grantee: 3COM Corporation

Gentlemen:

Spectrum Technology Incorporated has made measurements of the above referenced transmitter in accordance with the requirements contained in the CFR 47, Parts 2 and 90. To the best of my knowledge, these tests were performed using measurement procedures consistent with the industry or commission standards and demonstrates that the equipment complies with the published standard. The applicable rule parts are listed in the following test report.

The open area test site (OATS) used for the radiated measurements is located at Fluke Park II in Everett, Washington. The site date on file was most recently renewed during January of 1998.

Sincerely,

A handwritten signature in black ink that reads "Rod Munro". The signature is written in a cursive, flowing style.

Rod Munro
President
