FCC ID: DGFIPD3200

### Request for Confidential Treatment

The 3M Company (3M) requests that the material described below be withheld from public disclosure in accordance with Section 0.459 of the Federal Communications Commission's Rules, 47 C.F.R. § 0.459 (2006), and Industry Canada RSP-100 section 10, following the grant of application. In support of this request, 3M submits the following:

Identification of the specific information for which confidential treatment is sought:

Block Diagrams, Circuit Description, Schematics, Parts List, Internal Photos, and Operational Description for the above subject application.

These documents contain detailed system and equipment description and related information about the product which 3M Company considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, 3M Company considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,
