MATCH COLORS: **0**

PRINTER NOTES

See included barcode file attached for specifications; the printer is responsible for using the appropriate bar width adjustment to meet quality requirements. Dielines do not print.

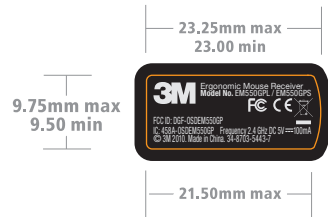

If this file utilizes a raster image containing spot channels for color separations, the PSD file used to create these channels has been included; chokes and spreads have not been applied, screen angles have not been chosen, and UCR or GCR color descriptions are not specified.

For 3M: Please request artwork from the contact listed in the Item Spec using the artwork request Word document.
