A photograph of a green printed circuit board (PCB) with various electronic components. The board is oriented horizontally. On the left side, there is a small white label with the text "RoHS", "CE", and "FC". Below this, there is a small white label with the text "20-A01 Rev. C" and "M002 1A-1A/000". The board features a central microcontroller unit (MCU) with several pins, surrounded by other integrated circuits (ICs) and passive components like resistors and capacitors. On the right side, there is a large black connector, possibly a USB or FireWire port, and a smaller white connector. The board is shown next to a ruler for scale, with the ruler markings visible at the top and bottom of the image.

A photograph of the internal components of a laptop, showing the battery, hard drive, and various cables. A ruler is placed above the components for scale. The battery is labeled 'BATT' and '14.0V 4400mAh'. The hard drive is labeled 'HDD'. Other components include a DVD drive, a modem, and various cables. The components are mounted on a silver-colored metal plate.
