RE: CPiD antenna connector

To Whom It May Concern:

This letter is to state that the antenna connector internal to CPiD will be installed at the factory or professionally installed in the field. Any version of this installed by non professional would have an adapter cable preconnected to the internal antenna connector. Adapter cable would have a unique antenna connector on one end.

Sincerely,

A handwritten signature in black ink that reads "Shawn Singh". The signature is written in a cursive, slightly slanted style.
