RE: Certification Application
FCC ID: DV8LX5160A

We, Fukuda Denshi Co., Ltd. request that the following information is to be held confidential pursuant to CFR 47, Section .457 and .459.

Block Diagram
Schematics
Parts List
Technical Description
Tune Up Specification

These contain schematic and operational details of the product for which certification is being sought. This information is classified as "Company Confidential" and disclosure of these exhibits would potentially be harmful to our business because this product incorporates innovative lowpower RF transmitter design techniques, ECG processing technology, and other such details that would be useful to a competitor in the medical telemetry business.

This information is not available to the public since all service and repairs are done on a sub-assembly basis and the design details are hidden. It is expected that this information would remain sensitive for at least two years from the date of submission.

Thank you for your attention to this matter.
