

User Manual

Since this module is not sold to general end users directly, there is no user manual of module.

For the details about this module, please refer to the specification sheet of module.

This module should be installed in the host device according to the interface specification (installation procedure).

- The following information must be indicated on the host device of this module;
“Contains Transmitter Module FCC ID: DV8TMX100” or
“Contains FCC ID: DV8TMX100”

- The following statements must be described on the user manual of the host device of this module;
“This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment and meets RSS-102 of the ISED radio frequency (RF) Exposure rules as this equipment has very low levels of RF energy.”

- The following information must be indicated on the host device of this module*;
“Operation of the embedded transmitter: TMX-100 requires the prior coordination with a frequency coordinator designated by the FCC for the Wireless Medical Telemetry Service”
*If it is difficult to describe this statement on the host device due to the size, please be sure to describe it in the user's manual.

- The following statements must be described on the user manual of the host device of this module;
“FCC CAUTION
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines as this equipment has very low levels of RF energy.”
