

Easy setup

Installation facile

1

Scan with your phone to download the TaHoma app.

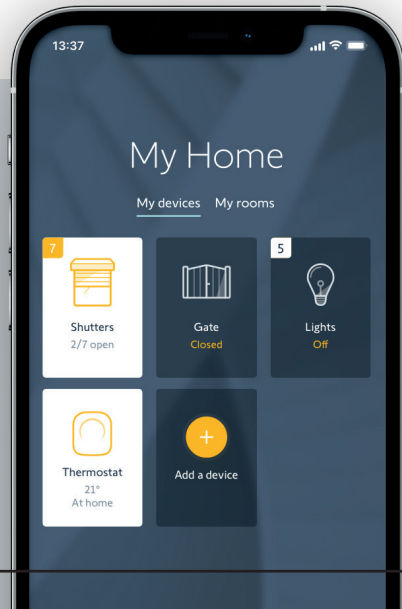

Scannez avec l'appareil photo de votre téléphone pour télécharger l'app TaHoma.

2

Follow the instructions on TaHoma app.

Suivez les instructions sur l'application TaHoma.

Note: For TaHoma Switch 5166656

There are no instructions on the functioning of the product because the user is guided through all the steps in its android/apple app. A simple leaflet is provided to tell the user to download the app. The printed user manual only contains safety and important/mandatory instructions as below:

Please read these safety instructions before installing and using the TaHoma. These instructions must be kept by the user of the TaHoma. In addition to the following instructions given in this guide, the instructions detailed in the installation and user guides available at www.somfy.com must be observed. Failure to follow these instructions or the use of the TaHoma outside the field of application defined in these instructions is forbidden and will invalidate the warranty and discharge Somfy of all liability. Before installation, check that the TaHoma is compatible with the associated equipment and accessories. If in doubt when installing the TaHoma, and/or to obtain additional information, contact a Somfy adviser or visit www.somfy.com.

Electrical connection

Only use the mains adapter supplied with the TaHoma to connect to the mains. The mains adapter must be connected to an electrical system in good condition and compliant with applicable standards. Make sure the power supply voltage and frequency indicated on the mains adapter data plate match those of your electrical installation. Unwind the electric cable fully before connecting it to the socket to avoid overheating. Always hold the adapter unit when connecting and disconnecting the mains adapter. Never pull on the cables. Never touch the mains adapter with damp or wet hands, as this could cause electrocution. The mains adapter and its cable must be kept out of the reach of children and away from pets, while remaining accessible so that it can be disconnected quickly in case of emergency.

General Instructions

To avoid damaging the product, do not knock or drop it, splash it, or expose it to flammable materials or sources of heat or moisture. Do not place any object containing liquid on the appliance. Do not open the appliance. Do not drill holes in it. Do not attempt to repair it.

Do not install or use it outdoors, and do not run the cable outdoors.

Maintenance

Do not use abrasive products or solvents to clean it. Use a soft, dry cloth to clean its surface.

Model name and reference	TaHoma switch
Operating temperature	32°F - 95°F (0°C - 35°C)
Power supply	5VDC – 2A
Frequency used and maximum radiated power	<ul style="list-style-type: none">• 433.050 MHz - 434.790 MHz – ERP <10 mW• 2.400 - 2.4835 GHz - ERP <1000 mW

FCC and INDUSTRY CANADA

RF Radiation Exposure statement: This equipment complies with FCC and Industry Canada RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 centimeters between the antenna and all persons.

INDUSTRY CANADA

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication. / Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

CAN ICES-3(B)/NMB-3(B)

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device. / Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

FCC STATEMENTS

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful

interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: the user that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
