Dear Sir/ Madam,

We, Advanced Compliance Laboratory, as EMC testing lab and agent, would like to represent the applicant, Somfy Systems Inc. to apply for your approval on product authorization under **Class II Permissive Change**. The investigation for the EMC performance of the EUTs, **TELIS Soliris Transmitter, Model No. Soliris** was performed in Oct., 2007 on behalf of the applicant. It was found that EUTs comply with the requirements of FCC Part 15 requirements. The system was configured as the typical condition during the test. Enclosed please find the test data/report with application forms.

The major differences between new models and the approved model are given as the following:

1. PCB Relayout –see attachment
2. Minor component replacement -see attachment

The measurement facility used to collect the test data is located at Hillsborough, New Jersey. This testing site has been listed by FCC (Refer to: 31040/SIT 1300F2) since 1992 and also recognized under NVLAP by NIST (Lab code 200101-0) since 1997.

Should you need more information, please contact me at (908) 392-3378 or email me to weili@ac-lab.com. Your attention is highly appreciated.

Sincerely,

Wei Li
Manager
Advanced Compliance Laboratory, Inc.
