

July 13, 2000

To: Ms. Linda Elliott
Federal Communication Commission
Equipment Approval Services
P.O. Box 358315
Pittsburgh, PA 15251-5315

Subject: FCC Part 15 Class B approval of our
Windows-based Terminal model IT7200

Dear Ms. Elliott:

We would like to add model IT7200 to our FCC ID DYDWT3200 file. Model IT7200 is similar to our FCC approved model, WT3200LE, except for the change in processor speed from 166 MHz to 200 MHz. The power supply is the same as that used on the WT3200LE.

With this letter, I have provided all the necessary documentation electronically and attached the radiated and conducted setup drawings. All the test equipment information has been included as part of the radiated and conducted test report. Please note that the Anti-Drug letter was submitted to you during the original investigation of our model WT2300 (FCC ID DYDWT2300).

Equipment List for the Radiated Measurement test:

Support Equipment:

See Radiated Measurement data sheet

Test Equipment:

HP Receiver Model 84560A (RES BW: 30KHz-100KHz, VBW: 10KHz-30KHz)

Equipment List for the Conducted Measurement test:

Support Equipment:

HP PC Model: HP Brio PC (a copy of DOC is attached)

HP Printer (a copy of DOC is attached)

HP Monitor (FCC A3LCGC560)

Test Equipment:

HP Spectrum Analyzer Model 8566B (RES BW: 30 KHz-100KHz, VBW: 10KHz-30KHz)

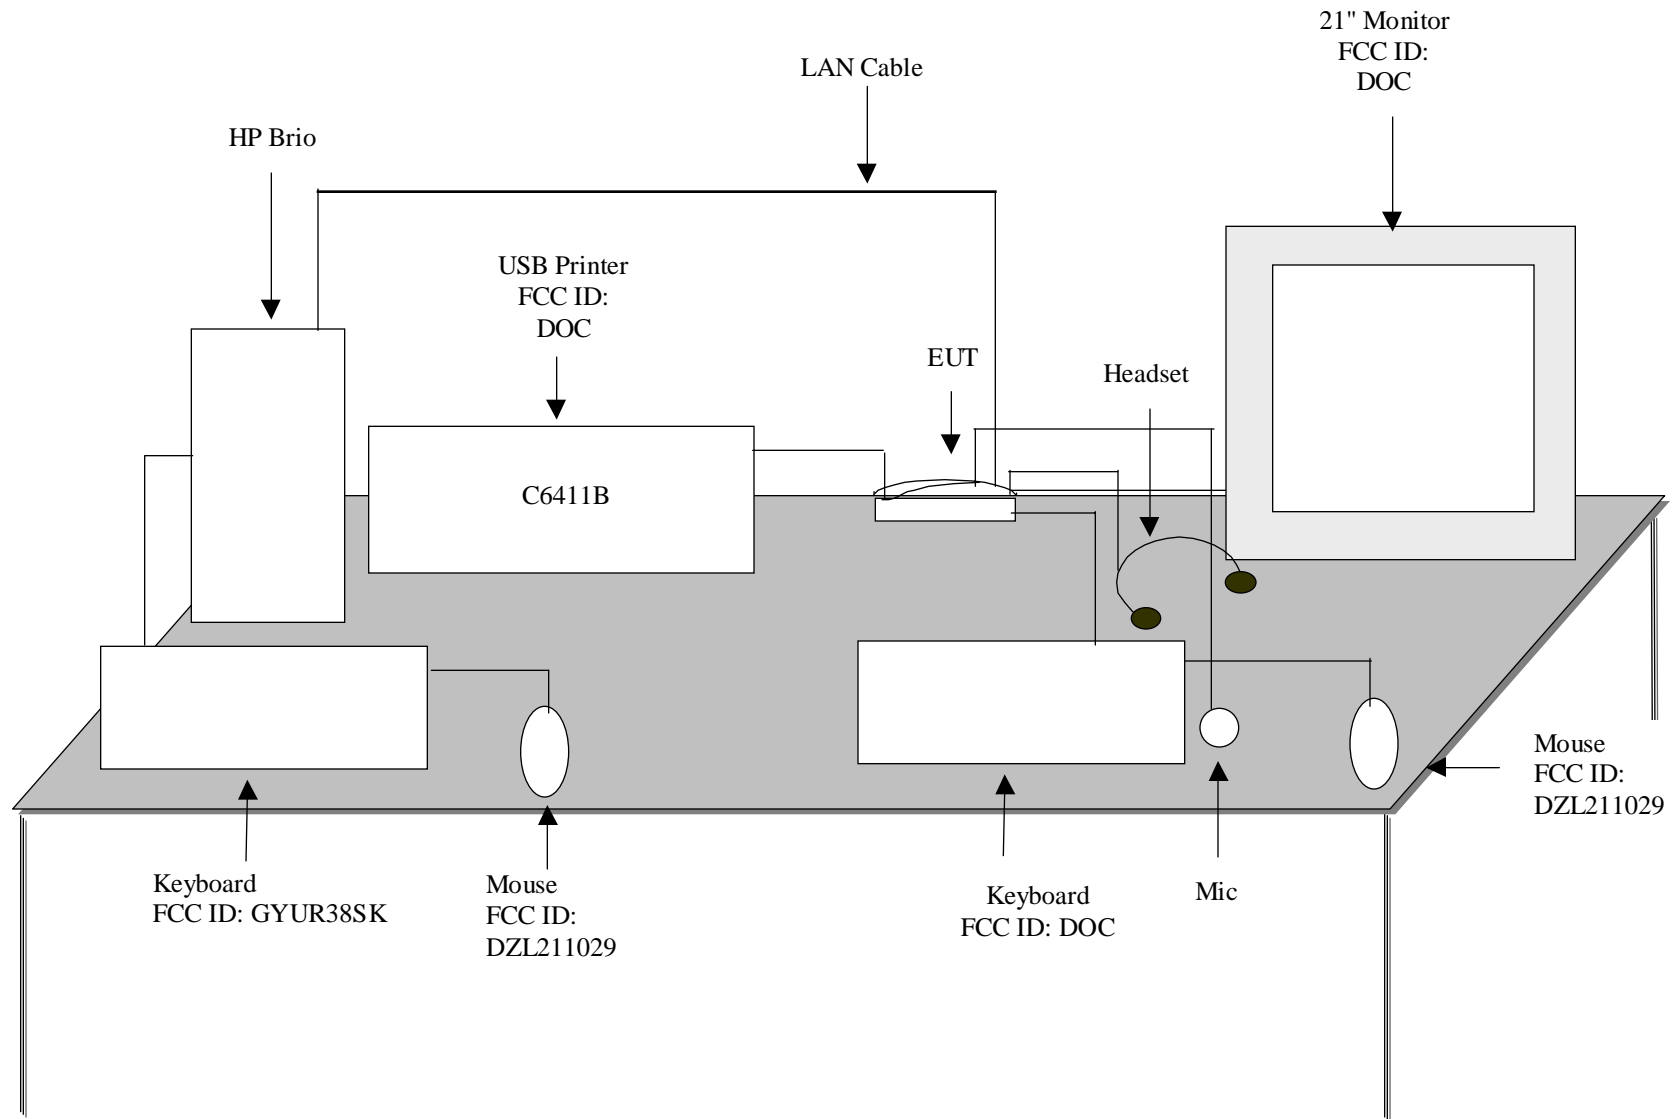

HP QP Adaptor Model 85650A

If you have any questions or need additional information, please contact me at 408.473.2458 (voice), 408.473.2245 (fax), or jnguyen@wyse.com (email).

Sincerely Yours,

Jimmy Nguyen
Acting Regulatory Engineering Manager
