Dear Rashmi and Joe,

We have been contacted by the grantee and they would like to set-aside the above referenced application. Component availability has necessitated delay of product launch beyond the available 180 day limit of short term confidentiality (STC). To avoid public leak of product details prior to product launch Dell request this product be set-aside and then re-filed immediately using the same FCC ID with STC to expire until Sept. 21, 2012.

This product has not been released, or marketed in the United States. Product launch and STC release are now planned for Sept. 21, 2012. We plan to immediately re-file the documents/Form 731 and re-issue the grant.

This letter has been reviewed by Dell prior to submitting this request to the Commission.

Regards,
