Ref: FCC Class II Permissive change for FCC ID: **E2KAX211D2**

Dear Examiner,

This is to request a Class II permissive change for module approval FCC ID: E2KAX211D2, originally granted on **06/16/2021** for DSS, DTS, UNII and on **03/24/2022** for **6XD**.

Change #1: This change establishes portable category SAR conditions for the Dell model P154G Notebook PC with WNC 81ELA115.G40 and Auden A22453-30 antennas.

The WLAN TAS feature is enabled. The exact same WLAN authorized modules are reused in this notebook with the exact same TAS algorithm validation methods for time averaging SAR as approved by FCC.

Note: The platform has been granted on 03/28/2022 for DSS, DTS, UNII, 6XD under certification number ATCB028525. No changes made except for the WLAN TAS implementation.

Sincerely,

By:

Steven C. Hackett
