McLean, VA. 22101*

To whom it may concern:

The enclosed documents constitute a formal submittal and request for a Class II Permissive Change pursuant to Parts 80 and 90 of FCC Rules (CFR 47) regarding to Special Radio Service and Public Mobile Service. A permissive is being requested for GE MDS LLC model MDS2710A/C data transceiver. A change is being proposed to the GE MDS models MDS2710A/C, which would result in changes to the performance characteristics originally reported to the Commission. Since the MDS2710A/C is presently certified, an emissions test has been performed to demonstrate that it continues to comply with FCC Part 90 limits.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is enclosed.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

David W. Bare
Chief Engineer

DWB/dmg

Subject: Request for withholding from public disclosure the bill of materials pursuant to an application for certification.

Applicant: GE MDS LLC
Product: MDS2710 Data Transceiver
Model: MDS2710AC
FCC ID: E5MDS2710AC

Dear Sir/Madam,

We, **Microwave Data Systems Inc.**, would like to request that the **Bill of Materials** submitted with the application for certification be withheld from public disclosure as per Section 0.459 of FCC Rules. This request is made under the provisions of Section 0.457(d) of the Commission's Rules, and Section 552(b)(4) of the Freedom of Information Act. These sections authorize as a withholding from public inspection materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

If you have any queries, please do not hesitate to contact me at 585 242-8440:
