Gentlemen:

The enclosed documents constitute a formal submittal and application for a Permissive Change pursuant to the following:

Subpart B of Part 15 of FCC Rules (CFR 47) – Requirements for receivers
Subpart C of Part 15 of FCC Rules (CFR 47)
RSS-Gen Issue 2, June 2007, “General Requirements and Information for the
Certification of Radiocommunication Equipment”
RSS-210, Issue 7, June 2007, “Low-power Licence-exempt Radiocommunication
Devices (All Frequency Bands): Category I Equipment”

The purpose of the permissive change is to add a new, higher gain antenna to the existing authorization for a 902-928 MHz transceiver.

Data within this report demonstrates that the equipment tested complies with the relevant limits for unlicensed wireless devices.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is enclosed.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mark E. Hill".

Mark E. Hill
Staff Engineer
