RE: FCC ID: E5MDS-ENETL2TU\_ATCB005587  
Attention: David Bare

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that it is not clear from the documentation if this device can have more than one input signal. If this device can have more than one input, please provide the required intermodulation test data.
2. In regards to multiple input possibility for this device as mentioned above, please explain if the power out is per channel of composite of all channels.
3. Please provide that parts list for this device.
4. Please provide the MPE report for this device. Alternately, please explain if this device will always be used in a licensed site where MPE is addressed at the time of licensing.
5. Please note that as all documentation will be uploaded to the Industry Canada site all documentation will be public view. If confidentiality is desired for Industry Canada, please provide a request for confidentiality addressed to Industry Canada.
6. Please note that the label states MDS as the manufacturer, but the IC application form states GE MDS LLC. Please note that the IC company number 101D belongs to GE MICROWAVE DATA SYSTEMS LLC 175 Science Parkway, but the number of the manufacturer shown on the label (Microwave Data Systems) at the same address is 3738A. Please correct the label to reflect the actual IC company number being used for this device or please correct the other documentation to show the correct IC company number for MDS.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
