To whom it may concern:

The enclosed documents constitute a formal submittal and application for a Class II Permissive change pursuant to Part 90 of the FCC's rules (CFR 47). A description of these changes is included with the application's documents. As there are no changes proposed to the actual radio, no new test data is being provided. All of the proposed changes are to ancillary circuitry; therefore the purpose of the application is to provide the Commission with updated files for the internal and external appearance, schematics, user manual and bill of materials.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

Mark Briggs
Staff Engineer
