FEDERAL COMMUNICATIONS COMMISSION

7435 Oakland Mills Road
Columbia, MD 21046
U.S.A.

Subject: Request for withholding from public disclosure the schematic diagrams, Software Specification and system block diagrams pursuant to an application for certification.

Applicant: GE MDS LLC.

Product: SF9

FCC ID: E5MDS-SF9

Dear Sir/Madam,

Somehow the "CONFIDENTIAL Software Specification" was uploaded for the FCC submission of the SF9 product back in 2011 and listed under the "User Manual". We need to remove this specification from the public side of the FCC grant filing. We are aware that this information has been publicly available since the date the grant was issued. However this information is confidential and needs to be removed.

We, **GE MDS LLC**, would like to request that the **schematic diagrams, system block diagram, Theory of Operation and Software specification** submitted with the initial application for certification be withheld from public disclosure as per Section 0.459 of FCC Rules. This request is made under the provisions of Section 0.457(d) of the Commission's Rules, and Section 552(b)(4) of the Freedom of Information Act.

These sections authorize as a withholding from public inspection materials which would be privileged as a matter of law if retained by the person submitting them, and materials which would not customarily be released to the public by that person.

If you have any queries, please do not hesitate to contact me at 585 242-8440:

Yours truly,

Signed:  Name: Dennis McCarthy
