American TCB

6731 Whittier Avenue, Suite C110 McLean, VA. 22101

To whom it may concern:

The enclosed documents constitute a formal submittal and request for a Class II Permissive Change pursuant to Part 90 of FCC Rules (CFR 47) regarding to Public Mobile Service. A change is being requested for GE MDS LLC model TD220, which would result in changes to the performance characteristics originally reported to the Commission, specifically, the software has been modified to allow operation in the 217-220 MHz band. The radio is currently certified for operation in the 220-222 MHz band. Since the TD220 is presently certified, testing has been performed to demonstrate that it complies with FCC Part 90 limits for operation in the 217-220 MHz band.

Elliott Laboratories, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is enclosed.

If there are any questions or if further information is needed, please contact Elliott Laboratories for assistance.

Sincerely,

David W. Bare Chief Engineer

DWB/dmg
