RE: FCC ID: E5MDS-TRM450, IC: 3738A-TRM450

To whom it may concern:

The enclosed documents constitute a formal submittal and application for a Class II Permissive change / Reassessment for a 410-470MHz transceiver module pursuant to the following rules:

Part 90 of FCC Rules
RSS-Gen Issue 3, December 2010, “General Requirements and Information for the Certification of Radiocommunication Equipment”
RSS-119, Issue 11, June 2011, “Radio Transmitters and Receivers Operating in the Land Mobile and Fixed Services in the Frequency Range 27.41-960 MHz”

This product was previously certified as an end-use product. This application is to convert the existing approval to modular approval. The original testing was performed outside of a host system, and the applicant has addressed all other modular requirements in this filing. No changes have been made to the device.

National Technical Systems – Silicon Valley, as duly authorized agent prepared this submittal. A copy of the letter of our appointment as agent is included with the application.

If there are any questions or if further information is needed, please contact National Technical Systems – Silicon Valley for assistance.

Sincerely,

Mark Hill
Staff Engineer
